

HONDA ACCESSORIES

ALLOY WHEELS

Make a dramatic statement. Genuine Honda alloy wheels are manufactured from high-strength aluminum alloy and are as durable as they are good looking. Our wheel looks are triple nickel and chrome plated over case-hardened steel for strength and corrosion resistance. SEE YOUR HONDA DEALER FOR MORE INFORMATION ON ALLOY WHEELS.

HONDA ACCESSORIES

ACCORD SEDAN REAR WING SPOILER

REAR WING SPOILER

Accentuate the aerodynamic styling of your Honda.

CIVIC AERO KIT

AERO KIT

Give your Honda a custom, sporty image. Installs easily and is color matched for a factory finish.

INTERIOR BICYCLE ATTACHMENT

INTERIOR BICYCLE ATTACHMENT

Convenient and secure means of carrying a bicycle within your Honda.

BICYCLE ATTACHMENT (SHOWS TWO OPTIONS)

BICYCLE ATTACHMENT

Roof rack holds up to two attachments. Each lockable attachment holds one bicycle. Fits most adult bicycles.

SIDE STRAKES

Enhance your S2000's sporty appearance.

S2000 SIDE STRAKES

DOOR VISOR*

Enjoy fresh air - even in inclement weather. Durable polycarbonate material will not fade or become brittle.

*May not be legal in all states. Please check the laws of your state.

ACCORD COUPE DOOR VISOR

LUGGAGE BASKET

The luggage basket is specifically designed to hold various fabric and hard sided luggage. Includes stretch net and tie down straps.

LUGGAGE BASKET (SHOWS TWO PLAYS)

SNOWBOARD/SKI ATTACHMENT

Lockable and holds two snowboards or up to four pairs of skis and poles.

SNOWBOARD/SKI ATTACHMENT (SHOWS TWO OPTIONS)

HONDA ACCESSORIES

HONDA i-VES SYSTEM CONTROLS

i-VES*

The Honda accessory in-vehicle Entertainment System (i-VES) will provide hours of entertainment for mid-row and back-seat passengers. Enjoy all the convenience of home theater right in your Odyssey! The OEM quality console is constructed of high impact ABS plastic and provides auxiliary ports for camcorders, portable DVD players, or video games plus a convenient storage bin for video tapes.

*In-vehicle Entertainment System

HONDA CARGO COVER

CARGO COVER

Cargo cover keeps valuables out of sight and protected from damaging sunlight.

ACCORD COUPE MOONROOF VISOR

MOONROOF VISOR

Reduce glare and wind noise while moonroof is open. This unique design allows air to circulate comfortably throughout the cabin even in inclement weather.

ACCORD COUPE MOONROOF VISOR

HALF & FULL NOSE MASK

Dress up your Honda while adding an extra measure of protection. Our nose masks are constructed of durable, leather-grain vinyl lined with soft felt.

ACCORD COUPE FULL NOSE MASK

ACCORD COUPE HALF NOSE MASK

CIVIC HYBRID CAR COVER

CAR COVER

Durable, ultra-soft material makes a perfect protective dust cover for the finish of your Honda.

DVD MONITOR*

Enjoy cutting edge entertainment. The high-resolution 20" TFT-LCD screen with dimmer is mounted overhead with the wide viewing-angle display adjustable for comfortable viewing by all mid-row and rear-seat occupants.

*Available November 1, 2002

ACCORD DVD MONITOR

VHS i-VES CONSOLE

The VHS system was designed specifically for the Odyssey. i-VES utilizes automotive grade electronics that have been designed and manufactured to withstand the harsh automotive environment.

ACCORD VHS i-VES CONSOLE

ALL SEASON FLOOR MAT

Designed to trap dirt, sand and water, these mats are long wearing and clean easily with soap and water.

ACCORD SEDAN ALL SEASON FLOOR MATS

TRUNK LID SPOILER

Add a smooth aerodynamic look to your Accord Sedan. Color matched to original factory specifications providing a custom-finished look.

ACCORD SEDAN TRUNK LID SPOILER

REAR WING SPOILER

Accentuate the aerodynamic styling of your Accord. Color matched to original factory specifications providing a custom-finished look.

ACCORD SEDAN REAR WING SPOILER

SPLASH GUARDS

Deflect minor road debris and mud away from rear quarter panels. To insure long life, splash guards are injection molded from heavy duty polymers and custom fitted.

CIVIC SPLASH GUARDS (FENDERWELL TRIM)

FENDERWELL TRIM

Protect fender edges from parking lot dings, scratches and scrapes.

ACCORD COUPE FOG LIGHT

FOG LIGHT

Enhance your visibility during adverse driving conditions while adding sporty style.

Provide your digital cable customers sophisticated, yet easy-to-use tools to make the most of your digital entertainment services and programming with Pioneer's Passport Application Suite.

Passport gives you the advanced navigation and navigation capabilities to offer a variety of entertainment options to your cable customers, ensuring their overall digital cable experience.

Passport's original, industry-renowned navigation interface for digital cable. Packed with multiple on-screen options, it offers precise control and dynamic scalability to a variety of system configurations.

CONNECTING PEOPLE WITH ENTERTAINMENT

PASSPORT

Passport Echo™ is the answer to the growing demand for DVR service. It provides subscribers with the actual navigation and DVR management tools they need, to easily step to these advanced entertainment options.

Delivering high-resolution graphics and an intuitive user interface, Passport Echo easily integrates the management components that allow multiple times and how they are introduced into the digital cable service.

Passport Echo's intuitive DVR controls, manage menu tools and recording capabilities make it easy for your subscribers to enjoy entertainment on their terms.

MAKING DIGITAL ENTERTAINMENT TO FIT ANY LIFESTYLE.

PASSPORT Echo

Describe how the next generation DCT set-top boxes leveraging newer hardware capabilities, particularly in menu and on-screen navigation, to offer a sleek, more refined HD solution. Passport DCT gives subscribers the latest responsiveness and intuitive navigation capabilities they demand from their digital cable providers.

Passport DCT is the industry's premier solution for DCT set-top boxes, supporting basic legacy digital cable on-screen navigation and HD.

PERFORMANCE AND SPEED FOR ALL THE HAVING FOR DCT

PASSPORT APPLICATIONS

PassTime™ Games

The PassTime™ Games application offers customers hours of entertainment with a variety of fun and challenging card games to choose from, directly accessible through Passport's Web.

i-Subscribe Application

Users now have access to categories of services they can select and subscribe to instantly. Configure i-Subscribe to promote the best selling services in an easy-to-use interactive interface.

Remote Application

With Passport's Remote Application, users can quickly and easily configure and customize their digital cable set-top remote to control a variety of consumer audio-visual components.

Weather Application

A featured Configure channel application that by default displays current conditions and 5-day forecast of local weather with an interactive feature to select from a list of 100 other cities.

Venue Application

Configure the Venue application to use interactive navigation to view categories and channels. With a customizable background, create multiple themes for special events.

Caller ID Application

As calls are received, a user-configurable banner displays the caller's name at the top of the screen. Turn to the Caller ID channel and display a list of all calls or two calls or a maximum of four phone calls.

Visit pioneerdigital.com or call 818.295.6008 to find out how Pioneer's Passport family of products for digital cable set-tops can turn your interactive digital cable services into true interaction.

VH-7000

Cost Effective Solutions for your Microscopy Needs.

Microscopy is a meticulous, time intensive and labor intensive discipline which can seriously impact your business productivity in a numerous ways. The VH-7000 was built to address these issues and overcome them.

Saving Time

- No pre-preparation or sampling time required for target observation, regardless of the size or shape of the target.
- With it's detachable high-definition monitor, group observation and analysis of targets can occur real-time, allowing for quicker discussion and consensus building among the participants.

GROUP REVIEW MADE EASY WITH VH-7000

- Immediate documentation of on-screen images, via portable high-resolution printer or export to floppy media for later analysis.
- Displayed images can be quickly exported and transmitted via internet (e-mail, FTP) for remote evaluation.

Saving Money

- Portable capabilities allow for on-site inspection reducing quality control costs.
- Reduces risk of costs incurred for discarded products and defective materials.
- Increased inspection productivity by reducing labor intensive preparation costs.

Saving Resources

- Non-destructive observation of targets reduces inventory and material waste.
- Frequency and efficiency of product inspection improves product quality.
- Immediate non-obtrusive observation of targets in-the-field, reducing risk of compromising or contaminating subject material in transport.

PC Compatible Functions

- Built-in SCSI port provides easy data transmission of image data between the controller and any PC.
- Both Super Disk and 3.5-inch FD supported. Super Disks can store as much as 120 MB of data, or 600 images on a single disk.
- Windows*-based file management program.
- Export features allow users to import images into word processing or layout software programs.

Measurement Functions

- The VH-7000's graphical user interface and mouse ensure user-friendly operation.
- Detachable mouse allows for easy transport and decreases chance of damage.
- With simple mouse operation you can measure the distance, radius, angle or area of targets on-screen. Many measurement functions can be combined for simultaneous measurement.
- Measured data can be stored on a disk separately or together with the image data.

EASY OPERATION VIA GUI & MOUSE

About Keyence...

Since it's founding in 1974, Keyence has developed a constant stream of innovative sensor and measurement instruments. To find out more about the VH-7000 and what digital microscopy can mean for your business, call 1-800-475-3922 for detailed product literature or visit www.keyenceup.com.

**PORTABLE HIGH DEFINITION
MICROSCOPY FOR THE DIGITAL AGE**

Your Next Target Should Be Digital.

The VH-7000 is the latest in digital microscopes from Keyence— the pioneer of portable digital microscopy. Many advanced features not found in conventional optical microscope systems, have been fully integrated into this technologically innovative diagnostic tool.

**VH-7000 PORTABLE
HD MICROSCOPE**

Microscope Innovations.

The VH-7000 offers many “industry-firsts” in microscopy, touting a 3000x magnification range which translates into tremendous business and science application benefits. The 1.5 million pixel high-definition (HD) CCD in its VH camera generates images at a resolution of 1434 x 1050 pixels, providing vividly clear images of minute targets.

Butterfly Cross-Section

Image with 900,000 pixel CCD

Image with 1.5 million pixel CCD

The digital VH camera requires no stabilization or mounting fixtures, allowing users to monitor a target by simply directing the camera lens to the desired area. This “free angle” observation capability allows users to find the target point easily. Unlike conventional microscopes, you don’t have to place a target on the stage, so even a large object can be observed quickly and easily without any preparation.

**NO PREPARATION
OF TARGET NEEDED**

TAB - Four-part Split View

**NEW COMPARATIVE
SPLIT-SCREEN &
ZOOM FUNCTIONS**

The VH-7000 can also display multiple target observations and magnifications simultaneously utilizing newly integrated split-screen and zooming functions.

These features allow the monitor screen to be split horizontally or vertically, enabling observers to inspect between acceptable and unacceptable samplings at the same time.

Configure as You Need It

Separate the display from the controller to save mounting space.

The display can also be attached to the controller.

Close the display being attached to the controller to enhance portability.

The Microscope for Every Need in Every Industry.

With an array of lens/mounting options and a comprehensive range of on-screen display measurement software tools at your disposal, the VH-7000 can meet even the most technical diagnostic observation demands with ease.
